TracHire™ University Edition provides Academic Leadership Team of Universities, Owners and Heads of Admission with an automation solution for bringing students and faculty on-board seamlessly. It automates the end-to-end processes of planning, profiling, sourcing, assessing, selection, preprocess training and on-boarding through six (6) independent module. TracHire™ allows you to weed through an ocean of profiles intelligently, saving 40% of the admission or recruiting time. TracHire™ provides more than 120 flexible views and reports of the admission / recruiting pipeline as well as extensive analytics tools for effective decision making. These can work in conjunction with any Campus ERP products.

Benefits of TracHire™ University Edition

Student & Faculty Admissions Team

- Comprehensive view of student supply chain
- Reduced sourcing & recruitment cost per candidate
- Improved TAT
- Higher productivity
- Superior student/faculty relationship management

Academic Leadership Team and Owners

- Consolidated views of colleges and courses
- Real time dashboards
- Demand & Supply analytics for decision support
- Seamless integration with any Campus ERP product
- Transparency to ensure performance and deadline orientation

Features

TracHire™ has been built using Service Oriented Architecture (SOA) on top of Microsoft .NET and Microsoft SQL Server 2005 technology. It uses BPM based workflow, Microsoft enterprise architecture, Microsoft Analytics and Semantic Search Technology. TracHire™ is available both as SAAS (Software-as-a-Service) and as an enterprise edition and can work behind firewalls. Aspire's TracHire™ product is truly differentiated from other market offerings and stands apart due to its following unique offerings:

- **Manufacturing Robustness:** Inspired by and based on multi-tier supply-chain management systems used by manufacturing sector for material and inventory flow
- **E2E Automation:** Complete, wing-to-wing, front-end, E2E automation, i.e., Enquiry, Registration, Assessment, Selection, Enrollment (of ERASE process)
- **Real Time Tracking:** Real-time view of candidates by educational institution, by course, by city, by ERASE, by counselor; etc. for a "waterfall" view of conversions and process effectiveness
- **Cost, Quality & Time KPIs:** Comprehensive Tracking of KPIs for cost (sourcing cost/candidate), quality (assessment score/candidate) and time (Average Enrollment Cycle) through a robust management information system.

TracHire™ University v 1.0
