FDP provides faculty, with a principle-based understanding of how learning works and how these principles apply in the classroom. This can help faculty innovate and be more effective. Our programs, offered in collaboration with iCarnegie and University of Cambridge, employ robust and effective teaching methods as we have identified the foundational knowledge and principles necessary to promote excellence in teaching.

### Benefits of FDP K-12 Edition

- Participants will benefit from iCarnegie's and University of Cambridge's access to the extensive research and methodologies developed over decades by their parent institutions
- Share Aspire's rich experience of training more than 1000+ faculty through more than 30 Faculty Development Programs in campuses across India
- Upgrade and improve teaching, training, content development and school leadership skills of the participants
- Explore the fundamental principles that guide our understanding of how young students process information and learn
- Share scholarly findings on teaching and learning with participants. Participants will explore recent advances

in academic research, pedagogies, research-based instructional practices and techniques for high school students. This will increase both competence and impact.

- Inquire into their practice in order to continue to learn and improve as professionals and strengthen 'Student-Adult Connections' in the classroom

### Program Highlights

Target Audience      Principals, Assistant Principals, Teachers and Educational Leaders

Program Duration      1 to 4 Days

### Features

- Content for all programs enabled on a Learning Management System (LMS)
- Co-branded certification from iCarnegie/University of Cambridge and Aspire when participants successfully complete the respective program

### Pedagogy

Presentations, group discussions, role plays, conceptual lectures and experience sharing in a variety of settings like classrooms, workshops and seminars, and a participatory approach to learning through relevant case studies in the modern classrooms.
